## PROFILE

---

Frontend Developer with **3 years** of experience building and scaling high-performance web applications using Vue and React. Delivered complex **e-commerce** platforms, **dashboards**, and admin systems, with hands-on expertise in **real-time chat** architectures, secure authentication flows (**including 2FA**), and **AI-driven** features integrated into user-facing products. Strong focus on performance optimization, scalable architecture, and writing clean, maintainable code for production environments.

## PROFESSIONAL EXPERIENCE

---

**Web Pioneer**, Frontend developer

09/2024 - 03/2026 | Nasr-City, Cairo

I have worked on multiple web projects, delivering responsive and scalable web applications, including:

- Developed **Joma Cake website and its admin panel** using **Vue3 and Vuex**, implementing efficient state management and dynamic interfaces.
- Built **Bobinn website and its admin panel** using **Vue2 and Vuex**, focusing on performance, maintainability, and user experience.
- Created the **Neftron admin panel** using **React and Redux**, enabling seamless data control and dashboard functionality.
- Developed the **new Web Pioneer website** using **pure JavaScript**, ensuring lightweight performance and clean, custom functionality.
- Designed and customized the **AI-Bokor website** using **WordPress**, adapting themes and features to business requirements.

**Point Blank Communications**, Frontend developer

10/2023 - 07/2024 | New Cairo1, Cairo

I have worked on multiple web projects, delivering modern, scalable, and user-focused solutions, including:

- Developed and maintained a **company website** using **ReactJS**, ensuring high performance and clean architecture.
- Built a **courses platform** using **Nuxt.js and Pinia**, implementing state management and dynamic content handling.
- Created **administrative dashboards** with **Nuxt.js**, focusing on data visualization and usability.

## EDUCATION

---

**Ain Shams University**,

09/2017 - 07/2022 | Cairo, Egypt

*Bachelor of Engineering, Computer and Systems*

- **Overall Grade:** Very Good
- **Graduation Project Grade:** Excellent
